

## About the Charter of Open Contact

The “Charter of Open Contact” was born through the following journey.

During the interviews for the second volume of the Open Contact Manual Trilogy — the “Complete Open Contact Manual”,  
I was speaking with Ryokah through Tyler on October 1, 2025.

Suddenly, Ryokah said to me:  
“You should create a ‘Declaration of Open Contact’!  
Something that each person can see every day —  
and something that each person can sign.”

At that moment, a vision appeared before me —  
or perhaps it was sent to me.

I saw what seemed to be the Charter of the Galactic Council and the  
Interstellar Alliance,  
displayed within their grand council chamber.

The mother ship of the Universal Council and Interstellar Alliance was  
breathtakingly beautiful,  
and the charter itself appeared to be made of a luminous, metallic substance,  
shimmering with rainbow light.

When I told Ryokah what I saw, he said with great excitement:

“Yes! That’s exactly it — that’s the one!”

From that moment, I felt that the “Charter of Open Contact between the  
Interstellar Alliance and the New Earth”  
was something that Tyler was meant to create, so I told him so.

About two weeks later, as the “Launch Ceremony for the Open Contact Teams  
of Each Nation” approached on October 18, 2025,  
two days before the event, something extraordinary happened again.

As I was preparing to go to bed,  
I suddenly saw once more the mother ship of the Universal Council and the  
Interstellar Alliance, and the Charter — shining before me.

This time, its contents were downloaded directly into my consciousness.

I said to Tyler:  
“I thought you were supposed to create it… but somehow,  
I’ve just received a download!”

Tyler replied,  
“I want to see it — please show me!”

Although I hadn’t yet put it into form —  
and I was busy preparing for the ceremony —  
once I began to actually write the Charter,  
it came through effortlessly, as if already complete.

When I showed it to Tyler, he said with joy:

“I love it!”

At that moment, I understood —  
this was why the Charter had to be prepared before the ceremony.

During the ceremony, for the first time in history,  
we were honored by the presence of an ambassador from the Interstellar  
Alliance, and the Earth's Open Contact Team was officially launched.

Then, on October 31, following the ceremony,  
I conducted another interview with Ryokah and the Interstellar Alliance  
for the Open Contact book series,  
where I formally confirmed the “Charter of Open Contact between the  
Interstellar Alliance and the New Earth.”

When the session began, Ryokah said:  
“Right now, the Interstellar Alliance, the Universal Council,  
and all others are here, listening.”

(Since the official ceremony, I've been felt that this is always the case!)

Ryokah explained:

“When you read the Charter of Open Contact aloud, it reaches all of us —  
the Interstellar Alliance and every being of higher consciousness.”

As it turned out,  
no corrections or revisions were needed ✨😊  
He said that all the key frequencies and sacred words were already present —  
and that it was perfect as it is.  
(I was relieved and deeply moved!)

Thus, in that moment, the “Charter of Open Contact between  
the Interstellar Alliance and the New Earth”  
was formally approved and adopted  
by the Interstellar Alliance and all higher realms.

This is the story of how the “Charter of Open Contact between  
the Interstellar Alliance and the New Earth”  
was born.
